# SATELLIX SENSORS 2024

# SATELLIX GAS SENSORS

This product range includes replacement sensors for Satellite XT transmitters. All Satellix sensor formats have a dedicated socket and a programmed EPROM. They are designed and developed to detect over 30 gases used in the semiconductor processes.

## Satellix Standard

This dimension is an electro-chemical sensor that can be used to detect most of the gases that we offer in our range.

## Satellix 4S

This electrochemical sensor is designed to detect SO<sub>2</sub>, NO, NO<sub>2</sub> and O<sub>2</sub> gases.

## Satellix LEL

This Satellix sensor format features pellistors for LEL monitoring.
